DAILY LEADER THURSDAY, AUGUST 10, 1865.

Since the article on the inside of this morning's issue was penned the telegraph fond. He ate it next day, and that night The Bentucky Election. brings us more returns from the Kentucky election. The organ of the Union party in Kentucky, the Louisville Union Press, claims that the Union men have elected four Congressmen, Rousseau in the Fifth, Green Clay Smith in the Sixth, Randall in the Eighth and McKee in the Ninth District; concedes the election of three opposition members, Trimble in the First, Harding in the Second, and Shanklin in the Seventh; and considers the Second and

and equal in the latter. According to its estimates the Amendment Congressional ticket is beaten in the State by from 2,000 Flags made to order in hist style. to 3,000 majority. In spite of this news we shall adhere to our former estimate. We have returns

from 29 counties, which gave Lincoln 13 129 and McClellan 25 511 votes, showing a majority of 1,751 for the amendmynt. The remainder of the state gave Lincoln 13,463 votes and McClelian 35,967 But in the back counties, which are still to be heard from, where ignorance, secession and pro-slavery feeling have their home, the gain will be by no means as great .-Kentucky has gone against the Amendment by fully 10,000 majority. The Publication of General Cox's

The Cleveland Herald has seen fit in s

recent article to inveigh bitterly against Principal Pairchild and Mayer Plumb, of Oberlin, for writing a "questioning letter" to General Cox, compelling him to declare his views on the subject of Negro Suffrage. We venture quietly to suggest to our venerable and irascible cotemporary that every word of that condemnation falls upon General Cox's shoulders. The responsibility of publishing the correspondence on this subject rests with that gentleman, and not with Mesers. Fairchild and Plumb. Their note was written with no design of forcing Gen. Cox to a public declaration of ef this weak. hif sentiments. Their questions were asked only for their own personal satisfaction, and they expressly declared in their letter that it was not their wish to publish his views unless he desired it. To be sure, Gen. Cox says in reply: "You must act upon your own responsibility in determining what publicity you shall give to this," but, nevertheless, the letter was furnished to the Cincinnati and Columbus papers before it was received by Messra Fairchild and Plumb. It is only just to these gentlemen to say that the only person responsible for publishing the Cox letter is Gen.

It is hardly necessary for us to add that General Cox would have shown more wisdom and greater respect for the large majority of the Union party of Ohio who favor negro suffrage if he had never pub-lished the document referred to.

The Towsenton (Md.) Union favors the election to Congress from the Baltimore district, there being a vacancy, caused by the appointment of Mr. Webster to the Collectorship, of Governor Bradford, whose successor in that office is already chosen.

The Cleveland Leader.

THURSDAY, AUGUST 10, 1865.

leath of General S. B. Harris. We learn from the Ravenna De nocrat that General Samuel D. Harris, known to many of our readers died at Ravenna on the 2d inst., in the 81st year of his age. General Harris came to the Western Reserve in 1812, and for the last half century has resided in Portage county, always an honored and useful citizen, prom inent in all public enterprises. He had the office of County Auditor for eleven years, and during the last thirty years be has been actively engaged as Land Surveyor, and during the greater portion of this period was the County Surveyor. In this calling few were his superiors, for it was one to which he was devotedly attached. So great was his facility in this business, and so accurate his memory, that for many years he has been able to sit down in his office and furnish a party a plot of his farm in almost any locality of the county as correctly as if made from actual survey, He rests from the labor of a long and so-

Reconstruction. The first step was taken on Monday towards reorganization in the late so called nembers to a convention, which is to be held on the 14th inst, to revise the State constitution. The remaining six States are to hold elections and conventions as fol-

GOLD LAST NIGHT 143 3-4. FROM MEADVILLE.

MEADVILLE, August 9, 8:25 P. M. Engine No. 3, drawing the mail train east on the Atlantic & Great Western Railway, exploded this afternoon, when at Dexterville, three miles east of Jamestown. The engineer, John Cookson, and and the express messenger, Hart, are reported missing. Two passenger cars were broken up, but no passengers seriously hurt, as far as is yet known here.

John Cookson leaves a family in this place. His brother was unmarried. Mr. Knowlton has a wife in Akron. Hart was unmarried. He should not be confounded with his brother, C. O. Hart, who is also an express messenger upon this road.

We have no further particulars as yet. A special train has gone to the scene of the accident. S. D. P.

AMERICAN INSTITUTE OF INSTRUC-NEW HAVEN, August 9. The American Institute of Instruction held its second session to-day. There are present at least one thousand guests from abroad, mostly from the Northern States,

of whom two-thirds are ladies.

B. G. Northrup was re elected President.

The question discussed to day was,
What duties does the return of peace bring to the friends of education, especially in reference to freedmen?

Zachos, of Andover.

Mr. Abbott said he had letters from Governors Holden and Brownlew utging the missionary work in the North to establish

public schools in Tennessee and North Car-Prof. Bassett urged co-operation with the blacks to accomplish the object. Freedmen would have more confidence in negroes as

A letter from General Howard was read, which the following is a portion: 1 am particularly rejoiced at the pro-posed discussion of the subject relative to the education of American freedmen. My purpose is to aid the work of education by every means of encouragement that are or may come within my power as Commis-sioner of Freedmen and Refugees. I will have the general superintendence of the work in the States where I have assistant ommissioners, and have already provided, when possible, that teachers shall have quarters and fuel, and they are permitted to have army rations, the purchase of which lessens the cost of board one-half. When the blacks have received money or wages enough they will feed as many teachers as benevolent agencies may send them-so they promise. Then, send teachers and organize as many schools as possible. The difficulties will be from the opposition of biled prejudice or real ignorance. Some men will shut their plantations as far as they can assist loyal technics and we aries. My agents are instructed to give full protection to schools. They will always have power to call for military but I am much induced use ever and all other mediums must do what we can to overcome prejudice and opposition, by carrying with us the spirit of Christ into every nook and

corner of the South-rejoice over every foot of ground gained, and never be discouraged at contumely or failure. The whites need muco real effort in their beagencies is really a move in the right di-rection. It will harmonize and encourage the efforts of those whose hearts are longing for a successful fulfilment of the prom se of this wonderful revolution. and schools go hand in hand when free labor is well regulated and properly settled as will soon be the case with a large influx of loyal immigration, and a pur-chase or rental of land by freedmen, more or less extended. Schools and

churches will spring in existence and thrive. More than 200,000 people, old and young,in the insurrectionary States, have learned to read in the last three years. Soldiers of regiments and the schools established all over these States attest to the Mr. Daniel Miller, of Otsego county died energy put forth. With the Government, this morning at his son's residence in this loyal christians, and negroes on one side, working night and day, what will be the effects of a few blind guides on the other, but to demonstrate with increasing emphasis the wickedness and folly of shutting out light and truth. It is for the interest of the South to co-operate with us, and God grant her sons and daughters wisdom to do so before He afflicts them further.

Very truly yours, O. O. Howard, Major General, Governor Andrew will speak to-morrow

account of the first defect in the Atlantic cable. When about eighty miles off land with dead calm weather, the ship was going at the rate of six knots an hour and the cable running out softly as a silk rope, the usual tests being made, when suddenly both those to and from the shore gave most serious indications of faulty insulation.-The utmost alarm was felt on the discov ery. The connections of the instruments were carefully re-examined and the most plunged into the river, and one passenger ators into the country, and business seems rigid exactness observed. In the final test killed and twelve or fifteen others were disposed to take a recess. Until the close all gave the same result and what of the heated term prices will, however, re- was still more certain and ominous the proof return currents from Valentia The following are the additional names of the passengers injured in the railroad 1. In railroad stocks the principal activity showed equal loss. Notice was instantly is in Erie, for which there appears to be a given to Mr. Canning, and Capt. Anderson fair outside demand. Cleveland & Pitts- and the speed of the Great Eastern, which was then in thirty fathoms, reduced to almost a stand still. All signals were sent rders from customers. Speculation is con- and received through the whole length of fined wholly to a few of the large brokers, 2,700 statute miles. Valentia was instantly communicated with; the whole electrical arely been so light as at present.

Government stocks are not affected by tests whether the fault was in the ship or in the Cuba's quotations. The supply is not the eighty miles which had been paid outlarge, and it would not be easy to supply Trials of so delicate a nature and of such vital importance to the success of the un-The quotations in miscellaneous shares dertaking were conducted with the most are generally higher, and there is more of vigilant caution, and calculations made Were 3441, and indifferent descriptions 22a33. Since the sale there is more disposition to buy at auction prices, which owners refuse. On the whole, the sale is contested a pretty estisfactory one to the owners.

A short length of cable was at once cut and a new splice made, when it was vigilantly tested and gradually sunk. When on the bottom it was again tested for some hours, and the signals shown to be absolutely perfect. All this time the Great Eastern remained quietly by. The calm and even throbbing swell of the Atlantic had died away into a mere undustry to the state of affairs only bring upon us fresh misuse which will require much time and trouble to repair. The strictest silence is kept regarding the burning of San Geronimo and twenty and treatment on the country is becoming more and more despersate.
